

Gambling Services Manual and Participating Provider Agreement

The Bureau of Drug and Alcohol Programs (BDAP) is pleased to announce that the Gambling Services Manual and the Participating Provider Agreement (PPA) is available for review and downloading on the BDAP website www.health.state.pa.us/gambling. The Gambling Services Manual and the PPA outline the requirements that agencies and individuals must adhere to in order to receive reimbursement through the Department of Health (DOH) for outpatient gambling treatment services. The Outpatient Gambling Treatment Applications are also available through BDAP's website and should be completed with all necessary documentation attached and forwarded to Ms. Meri Haunstein at the below-listed address. Once an application has been approved by BDAP, the PPA will be sent to the provider and should be completed and returned to BDAP. Please note that until the PPA is fully executed providers will not be eligible for DOH reimbursement.
